

Peppermint Hot Chocolate

If you're looking for a festive twist on your classic Nesquik, try this Peppermint hot chocolate! This Christmassy drink combines the classic taste of Nesquik with a refreshing hint of peppermint, creating a magical holiday treat. Perfect for cozying up on a winter day, this drink is sure to bring smiles and holiday cheer.

Serves: 1
Allergens: milk

Ingredients:
2 tsp (9g) Nesquik Chocolate Milkshake Powder OR Nesquik Hot Chocolate Powder
1/4 tsp peppermint flavouring
200ml semi-skimmed milk, warmed & frothed

Method:

1. If you don't have a milk frother, don't worry! Add the milk to a small saucepan and heat until just warm. To froth the milk: add the warm milk to a jam jar - make sure the lid is secure and tight - then shake! Alternatively, add the warm milk to a cafetière, and pump up and down vigorously, holding the lid down with your other hand, for 10 seconds.
2. Add the peppermint extract and Nesquik Chocolate Milkshake Powder or Hot Chocolate to a mug. Add a little of the warm milk and stir to form a paste.
3. Top with the rest of the frothed milk and enjoy!
